#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

This claim will not be further considered on the merits.

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 and 31-35, drawn to an input device including at least one keypad comprising wrist support means which comprise a plurality of soft cushioned pads.

Group II, claim(s) 1, 11-14 and 36-38, drawn to an input device including at least one keypad having a movable support means.

Group III, claim(s) 1 and 15, drawn to an input device including at least one keypad wherein the keys on the keypad are positioned in a series of curved rows.

Group IV, claim(s) 1 and 16, drawn to an input device including at least one keypad wherein the keys positioned at the end of each row are slightly raised.

Group V, claim(s) 1 and 17, drawn to an input device including at least one keypad wherein one or more keys on the keypad have dual functionality.

Group VI, claim(s) 1, 18-22 and 40-42, drawn to an input device including at least one keypad wherein the input device comprises two keypads.

Group VII, claim(s) 1 and 23, drawn to an input device including at least one keypad wherein the keypad has an optional pointing device.

Group VIII, claim(s) 1 and 24, drawn to an input device including at least one keypad wherein the keypad has wireless functionality.

Group IX, claim(s) 1 and 25, drawn to an input device including at least one keypad wherein the keypad includes battery power means.

Group X, claim(s) 1 and 26-29, drawn to an input device including at least one keypad wherein the keypad is adapted for use with specialist applications.

The inventions listed as Groups I-X do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each Group claims a keypad having a distinctly different inventive concept, as listed in the above group descriptions.

A telephone call was made to Robert Faber on February 27, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JILL E. CULLER whose telephone number is (571)272-2159. The examiner can normally be reached on M-F 10:00-6:00.
